## CALL FOR PAPERS

Special Issue "Digital Economy"

Dear Colleagues,

Globally, digital technologies continue to drive transformative change in society and the economy. The digitalization of the economy is viewed as a catalyst for innovation, competitiveness, and growth, offering immense potential for entrepreneurs and small- and medium-sized enterprises (SMEs). The digitalization of the economy has an effect on businesses, resulting in the development of new business structures. Consequently, the design of novel business models for the digital economy is becoming a vital area of study on a global scale. This Special Issue also invites contributions that focus on the methodological aspects, offering innovative approaches to capturing digitalization of various sectors and actors within the economy.

In light of the current Economic climate, we have designated the June 2024 Issue as a Special Issue on the "Digital Economy". Therefore, all submissions to the journal should be centered around this current theme.

We welcome original and creative papers in the areas listed below, but not limited to them. The mission of the issue encompasses any new models, theories, and methods pertaining to the digital economy.

Digitalization of the economy	Digitalization and economic development
Digitalization of infrastructures of international organisations	Digitalization and industrial organization
Digitalization of public administration	Regulations on digitalization
Business models for the digital economy	Taxation in the Digital Economy
Digitalization and globalisation	Digital Economy and Public Financial Law
Digitalization and data security	Digital Economy and Budget Policies
Artificial intelligence and the digital economy	Smart Cities
Local Governments and Digital Economy	Digital Tax Havens
Effects of digitalisation on armies	Digitalization of agriculture
New organizational practices and digitalization	Business Strategies for the Digital Economy
Digitalization and transformation of Human resources practices	Digital economy & the Sustainable Development
Digitalization and new division of work	Digital Marketing
Digital economy and entrepreneurship	Digital Economy and New E-Business Strategies
Adoption of new digital technologies	Digital platform-based businesses
Digital skills for digital economy	Digital economy and economic growth
Measuring the digital economy	Digital diplomacy
Digitalization and productivity	Smart Contracts
Digitalization and labor market	Sectoral case studies
	Firm case studies

Deadline for manuscript submissions: 30 January /February 2024
